

### A GLOBAL MISSION

When Dr. Bill Bright co-founded Cru in 1951, he began with college students. He believed that if we reach the future leaders today, we can reach the world tomorrow. Sixty years later, what began on the UCLA campus has now spanned the globe. The goal of the Campus Ministry's Global Missions is to reach and mobilize students and recent graduates to impact the entire world. This past August, over 400 new missionaries were sent to 65 locations worldwide. With the Great Commission ever before us, our heart is to continue sharing the gospel and sending missionaries to campus locations where Cru does not yet exist.

...with the Great Commission before us, our heart is to continue sharing the gospel...

### GOING TO NEW PLACES

By the year 2020, our aim is to have a Cru presence on half the university campuses in the world. Currently, we have identified 551 university campuses across the globe on which we hope to send laborers to start a movement. Presently, these universities are divided by region:

- Latin America and the Caribbean
- Europe
- Eastern Asia
- South Asia
- Africa
- The Middle East
- Unreached People Groups

### WHAT WILL IT TAKE?

The Lord has already provided the financial resources to send these 400+ laborers fully-funded for a year of ministry to the current ministry locations. This year, every one of these 65 teams will be pursuing a launch trip in the middle of the year, each going to a city, nation, or campus that has no campus ministry at all.

But it takes more than man-power to truly help get a movement off the ground. We'd love to send each team with \$5,000 to help launch a new location. These funds will help provide:

- Specialized training for this specific kind of launch attempt
- Travel to a new location and living expenses for 2-4 weeks
- Outreach materials and Bibles in the relevant language of the culture
- Ongoing coaching and care of new leaders, done by nationals or longer term team

### WILL YOU GO WITH US?

Help give laborers the tools they need to literally go and minister to young people on university campuses worldwide. Your investment in this opportunity will provide the logistical needs, evangelism materials, and coaching needed to bring the Good News of the gospel to students in new locations across the globe.
